

LUKE CAMPBELL

CAREER OBJECTIVE

Soon-to-be Computer Science graduate eager to continue exploring the inspiring, innovative field of Software Development.

PROJECTS

Data Monitoring SaaS ("INVENTRACK")

2020-2024

Founder and President

Live Site: <https://inventrack.org>

Architecture Overview: <https://inventrack.org/about.html>

- Developed and maintained SaaS that tracks and reports online inventory from major e-commerce platforms in real time, enabling users to get first dibs on collectibles, limited edition releases, and discounted items. Hosted with **99% uptime for 3 years**, sending **20,000+ requests** per hour
- Developed in Python with Discord/Slack webhook API integration, maintained on CentOS and hosted with Microsoft Azure
- Licensed software to a group with **3,000+ members**, generated **8-figure gross revenue** from affiliate links

Social Media Website ("EVENT-EDU")

2023-2024

Lead Developer, Scrum Master

- Created and deployed social media website where students can join communities of interest, discover nearby events, and form online friendships.
- Collaborated with a team using **Scrum Methodology**
- Utilized Git, Azure, NodeJS, JavaScript, HTML, CSS, EJS, PostgreSQL

Kaggle Coding Competition (NFL BIG DATA BOWL)

2023

Co-Developer

- Developed prediction model that delivers **90%+ accuracy** on NFL plays.
- Utilized Python - Pandas, NumPy, Scikit, Jupyter to develop, train, and analyze a machine learning model from scratch.

LEADERSHIP EXPERIENCE

Phi Gamma Delta Fraternity

2021-2023

Judicial Board Chairman / Head of Risk Management

- Created and implemented risk management policies, conducted safety audits, trained members on risk awareness, communicated with emergency service officials, and ensured compliance with university and fraternity regulations.
- Responsible for the safety and good standing of an organization with 140+ active members and a national presence with 200,000+ lifetime members.

EDUCATION

2020-2025

UNIVERSITY OF COLORADO
BOULDER

- B.A in Computer Science
- Minor in Philosophy
- Dean's List 3x
- Major GPA: 3.64

SKILLS

LANGUAGES

- Java
- Python
- JavaScript
- C/C++
- CSS
- HTML
- PostgreSQL

PROCESSES

- REST APIs
- Git Version Control
- Agile Methodology
- Docker Containerization
- Linux Kernel
- Data Analysis
